Two side-by-side astronomical images. The left image shows a dark field with a prominent, bright vertical band of light running through the center. The right image shows a similar field, but with a faint, diffuse, and irregularly shaped object visible in the lower right quadrant, possibly a comet or a nebula. The background is a noisy, grainy texture typical of astronomical observations.

Two side-by-side astronomical images. The left image shows a dark field with a prominent, bright vertical band of light running through the center. The right image shows a similar field, but with a faint, diffuse, and irregularly shaped object visible in the lower right quadrant, possibly a comet or a nebula. The background is a noisy, grainy texture typical of astronomical observations.

A horizontal color bar scale ranging from 40 to 20. The scale is represented by a gradient bar that transitions from dark on the left to light on the right. Numerical labels are placed below the bar at intervals: 40, 2044, 2048, 2051, 2055, 2059, 2063, 2067, 2070, 2074, and 20.
