The taskbar at the bottom of the screen displays several application icons. From left to right, they include: a search icon, a file explorer icon, a Microsoft Edge icon, a Google Chrome icon, a Spectra icon, a webpa icon, and approximately 18 instances of the Unhan application icon. The Unhan icon features a red circular background with a white cross-like symbol.

A screenshot of the Windows taskbar at the bottom of the screen. It shows several application icons, including a search icon, a file explorer icon, and multiple instances of 'Unhan' (indicated by orange icons with a red 'X') and 'Spectr' (indicated by a green icon with a red 'X'). The taskbar is partially obscured by the bottom of the 'Unhan' application window.

The screenshot shows a Windows taskbar with a search icon on the left. To its right are several application icons: File Explorer, Microsoft Edge, and a group of application windows. The group includes 'Spectr...', 'webpa', and multiple instances of 'Unhan'. The 'Unhan' instances are represented by orange icons with a white 'X' and the text 'Unhan'. There are 14 such instances visible, followed by an ellipsis '...' indicating more windows are open.
